Product Information

Description

This work stool has a Fine-Tune™ footring mechanism that allows the user to adjust the height of the footring from a seated position and reduces the pressure on the underside of the user's thighs. It has a 5-star base, pneumatic seat-height adjustment, and 2 height options. The low stool has a seat-height range of 24½" to 29" with a Fine-Tune footring that adjusts 2½" (from 15" to 17½" from the seat). The high stool has a seat-height range of 27½" to 34" with a Fine-Tune footring that adjusts 5½" (from 15" to 20½" from the seat). The high stool provides a wider range of height adjustment than does the low stool. The work stool is available in size B.

The stool has a Pellicle® material that conforms to the user's body and retains its original shape when unoccupied. The material is lightweight and breathable and distributes the user's weight evenly over the seat and back of the stool. The stool's Kinemat® tilt lets the body naturally pivot at the ankles, knees, and hips.

Tilt options include a tilt limiter that allows the user to select the tilt range to limit the amount of recline; a tilt limiter and seat angle that allows the user to select the tilt range and a horizontal or 5° forward seat angle; or a standard tilt.

Back-support options include PostureFit® support and an adjustable lumbar support. The PostureFit support provides a custom fit in the lower back area, below the beltline, that helps achieve healthier posture and improved lower back comfort. The user can adjust the level of support with a lever.

Arm choices include a fixed, nonadjustable option; a height-adjustable option that moves the arms 4" vertically; and a fully adjustable option that moves the arms 4" vertically and pivots the armpads 15° outward and 17½° inward.

The ZB, WS, and G8 options include a frame applique. These appliques are applied to an Aeron work stool's seat, back, and arms to minimize the effect of contact between the stool and a wood-edge surface. The G8 option does not include an arm coating.

The work stool and the frame applique options (ZB, WS, and G8) do not meet CAL 133 requirements.

Notes

Work stools are tested and warranted for use by persons 300 pounds and under.

For information on casters and glides, see Casters and Glides in Appendices.

Fine-Tune footring's polymer cover matches the frame finish.

PostureFit support is not available on standard tilt option.

Customer's Own Leather (COL) can be applied to armpads; requires 4 square feet. See Order Information in Appendices.
